

Sprint 2 Retrospective

What went well

Syncing system works as intended

Managed to setup databases

Manged to link databases on azure

Managed to create login system

Managed to setup opponent`s grids

What went wrong

Screen sizing issues, must zoom out to play

Winning word not syncing correctly

Unable to link word database to game yet

What can be improved

Improve login speed

Separate the player grid from the opponent`s grids

Improved sync speed

Syncing can be more responsive

Sprint velocity

User stories completed	Story point assigned
I would like to see visual feedback from opponents' grid	200
I would like to see opponents grid system	200
I would like to login to my account	50
I would like as a user to be able to play classic wordle	200
I would like as a user to receive visual feedback about my wordle guess	110
I would like to see if my guess is correct	180
I would like to create an account	100
Total	1040
